

BEACHCOMBER'S HYBRID EDITION IS THE RIGHT CHOICE.

Our Hot Tub qualifies for this green Hybrid Seal of Approval when it is built with these 2 key options:

1 Eco4WALL SEALED INSULATION PACKAGE *for proven energy savings*

\$699

We took this photo of our fully foam filled Hybrid hot tub, and turned it upside down for you. That's because from this angle, you can see that every crevice is filled with expanding foam to minimize the opportunity for heat loss. This means that heat is retained within the hot tub cavity to save you money on heating costs. Studies prove that insulation is the single most important factor that determines energy efficiency - our engineers know this method works.

The extra cost and the infrastructure to give you this option is expensive - that's why our exclusive Hybrid Edition is the best hot tub money can buy.

2 ENERGY SAVER MANAGEMENT SYSTEM

Proven low cost operation with up to the minute programmable heating, cleaning and pumping functions.

QuickDisconnect Unionized Plumbing Kit™ with polygraphite seal kits. Provides easy removal for storage if needed.

Available ClearTech™ Ultra Violet Water Care System for 100% enviro-friendly water purification.

Gate valves eliminate dumping the heated hot tub water for servicing.

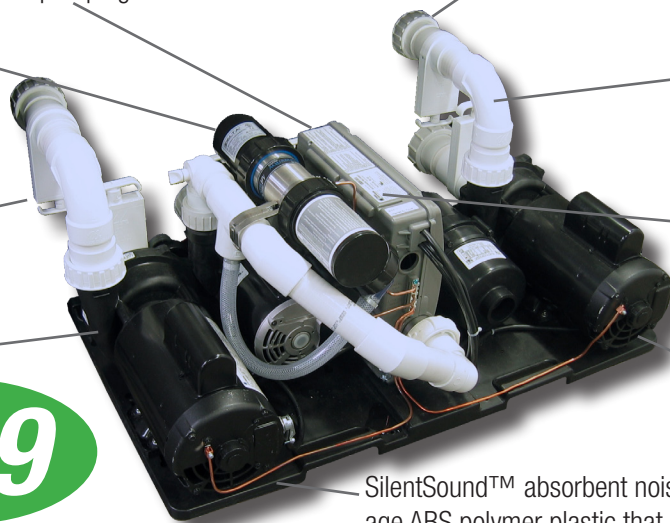

Longitudinal component design for the best hydrodynamics and water flow.

Sweep fittings instead of 90 degree elbows for low restriction, efficient water flow for better massage and therapy.

Smart Sense Control™ state of the art digital technology for peace of mind, low cost operation.

100% removable components for easy service if needed, or technological upgrades in the future as they come available.

\$399

SilentSound™ absorbent noise reduction pad. Made of a one-piece, space age ABS polymer plastic that absorbs vibration for whisper quiet operation.

THE ENERGY GUIDE PROVES HYBRID'S LOW COST OF OPERATION

Beachcomber outperforms the spa industry with lower energy costs... by an average of up to 34%! The Energy Guide will show the actual electrical operation costs on every one of our hot tub models versus the spa industry. Like any other twenty-first century appliance, Beachcomber has a moral responsibility to conserve our earth's energy resources, through using more insulation and less motors and horsepower, without sacrificing any ability of the FlexJets to provide the ultimate in health and therapy massage benefits. Your choice of a Beachcomber Hot Tub will allow you to enjoy our hot tubs in all four seasons at the lowest operational costs!

Extra Savings

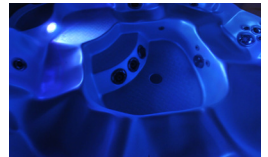

1.  **Britewerx™**
Save \$299 **Britewerx FlexJet** lets you change the number of jets you want in your hot tub at no extra cost to you. Not only the number of jets and the massage type, but the width and intensity to improve your health benefits.

2.  **SafeAxiss™**
Save \$479 **SafeAxiss Steps** gives you a double tiered step, making entry and exit safe and easy for everyone. This weather proof cover protects your cab forward Energy Saver Management System from the elements.

3.  **EverLite™**
Save \$99 **The EverLite** at the touch of a button changes the color of your hot tub water from a clear light, to every color in the rainbow. Our EverLite underwater moodlighting costs only pennies a year to operate!

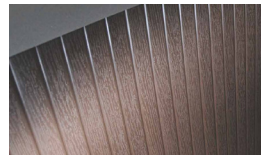

4.  **Power Guard™** The **Power Guard** hot tub cover seals in heat like the cap on a thermos bottle. A complete vacuum seal is also created around the perimeter of the hot tub and at the seam to prevent heat loss and save you energy costs.

5.  **ClearTech™**
Save \$99 **The ClearTech UV Water Care System** is pre-plumbed in a Hybrid with the ability to have maintenance free water care. This is an optional automatic UV light sanitization system, for clean, fresh, safe water.

6.  **Enviroskirt™**
Save \$399 **The Enviroskirt** is a high quality, environmentally friendly, maintenance free cabinet finish. It is hand crafted for proven durability, to give you long lasting beauty and contributes to energy efficiency.

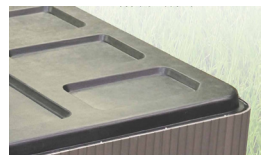

7.  **Hush Pump™** **The Hush Pump** a very quiet, high flow filtration water pumping system that cleans and heats your hot tub 24/7. Beachcomber's Hush Pump gives you very low electrical power usage to save you money on energy costs.

8.  **RFM™ Massage**
Save \$399 **The Reflex Foot Massage** gives you a powerful, invigorating foot massage. At the turn of a dial, powerful water jets flow to your feet for the perfect foot massage, for better health and wellness benefits.

9.  **Perma-Seal™** **The Perma-Seal** is a tough ABS foundation that completely seals the bottom of your hot tub. This construction eliminates ground elements like water, moisture or air penetration into the fully insulated cavity.

10.  **Metallic Finish™** **The Metallic Acrylic Finish** is a tough, durable and easy to clean surface. Backed with Beachcomber's Glassloc 2000 strengthening process, enables us to give you a lifetime structural guarantee on the hot tub you choose.
